**Investment Objective**

This Fund aims to provide medium to long term capital growth for those who hold a long term investment view and who are prepared to accept significant fluctuations in the value of their investments in order to achieve long term returns. It is intended that the investments will be made on a diversified basis. The underlying investment portfolio will mainly consist of equity and equity related securities of companies in health care and related industries globally and which are listed on any stock exchange. This Fund may invest in companies which derive a significant portion of their earnings from medical and pharmaceutical products and services. The remaining assets of this Fund may include bonds and deposits. This Fund will invest at least 80% of its net assets in equity and equity related securities of health sciences companies. These companies will derive more than half of their revenues from health care-related business activities or commit more than half of their assets to these activities. Such equity and equity related securities include common stocks, preferred stocks and depositary receipts.
